INTRODUCTION

Dear polling station member:

ONPE thanks you for the time you will take to serve your country. Your participation will contribute to make these general elections unchallengeable because you will be the authority charged with ensuring that only properly identified citizens will be distributed the voting ballots at the polling station to cast their secret vote. At the end of the vote, you will count the votes, write down the results and sign the records to ensure voting security.

Citizens will perform the main role in the elections, represented by the polling station members. ONPE will provide permanent support and distribute a training manual to help them better perform their task.

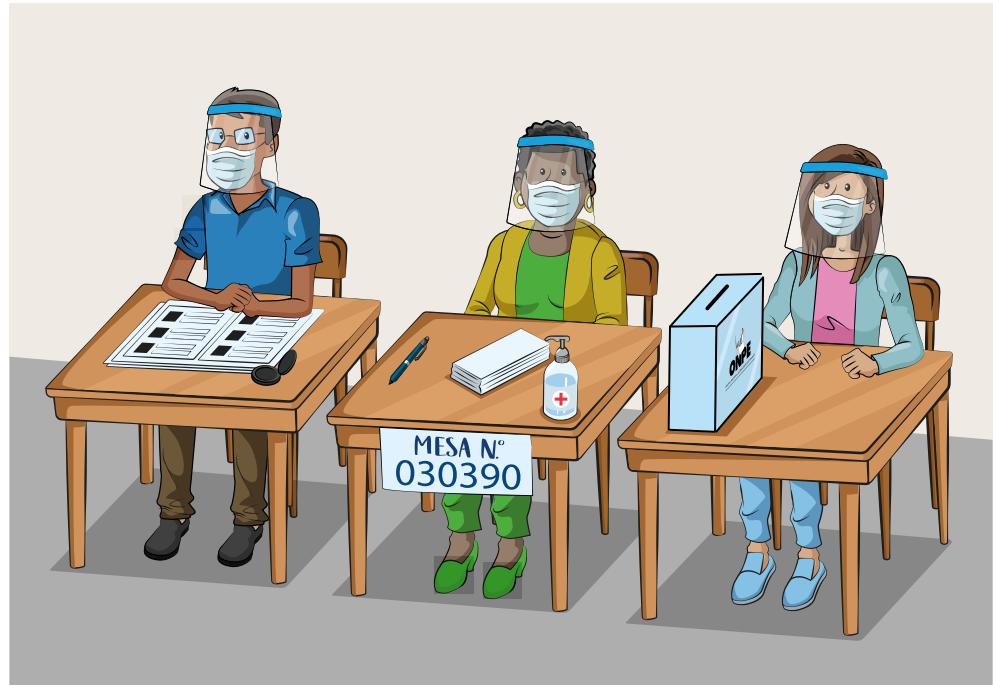

It is important for you to review this manual so that, voting day come, you will know how to set up the polling station, conduct the voting act and count the votes, always abiding by the principles of neutrality, respect for people's rights and ensuring that nobody will incur in acts that may hamper the normal evolution of the elections.

Read this manual carefully, pay close attention to the illustrations and practice what you are expected to do, so that you will be ready to make a valuable contribution to national democracy.

THANK YOU!

THE POLLING STATION

The main and substitute members of the voting booth (desk) should reach the polling station by 6:00 a.m. Setting up the polling station starts early to conclude the various required tasks before 7:00 a.m., and start voting without agglomeration of voters.

Several persons will work together at various times during election day.

Consular staff who will support polling station members.

Security personnel to assist in maintaining order.

Let's prevent COVID-19 contagions

Every polling station member must comply and ensure compliance with all measure to prevent COVID-19 contagion.

Observers, both Peruvian and international, who will prepare a report on Peru's elections.

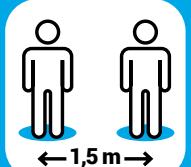

Poll watchers representing political parties.

Wearing a facemask covering nose and mouth is mandatory.

Keep at least one-and-a-half-meter distance between persons.

Disinfect hands frequently, in particular before and after sharing documents and supplies.

Avoid touching eyes, nose and mouth with hands.

Sneeze or cough into your arm, without removing the facemask.

Keep facemasks on when talking on the cellphone.

Prevent agglomerations.

ELECTIONS

materials

Supplies will be delivered in a box.

PACKAGE A

Including:

- Pens

- Inking pad

- Packaging tape

PACKAGE B

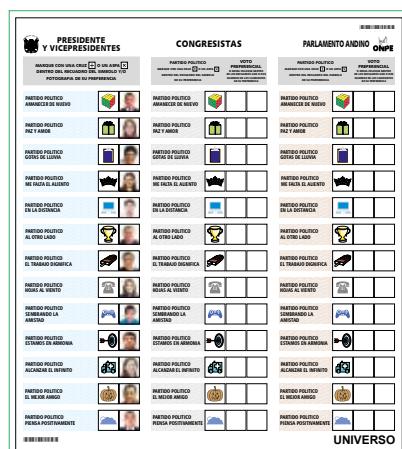

Including:

- Elections documents

Polling station members' attendance signing form; station installation forms and voting tally sheets for the three elections; draft tally sheet; results announcement posters; members' participation certificates.

- Voting ballots

- **Voters' list**

Voter signing and fingerprinting booklet.

- **Holograms**

Adhesives placed on National Identity Document (DNI) after citizens have voted.

- **Orange envelope**

To keep polling station members' attendance control sheet, voter list and surplus holograms.

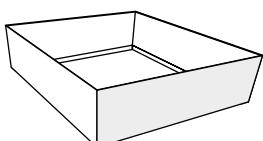

- **"Elections surplus materials" self-adhesive label**

To place on the surplus materials' box.

- **Tray**

To place DNI.

- **Biosafety package**

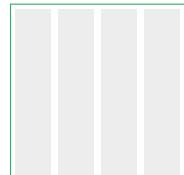

PACKAGE C

For materials to be used at end of voting.

- **Plastic sheeting**

To protect voting minutes and tally sheets.

- **Stickers**

To close envelopes.

- **Bags**

To keep records.

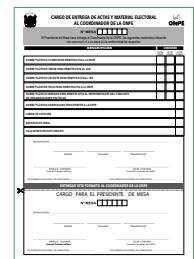

- **Challenge form envelope**

To be used in case personal identity or ballots are challenged.

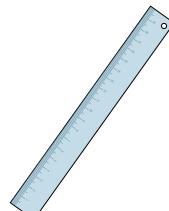

- **Receipt forms**

To register election records and materials handed over to consular staff.

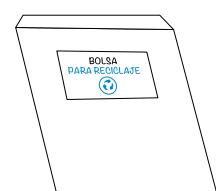

- **Rulers**

For easier filling out of congressional voting records.

- **Surplus materials bag**

To keep and return pens, inking pad, unused challenge envelopes and adhesive tape.

Setting up the **POLLING STATION**

Steps:

1

Polling station presidents will disinfect hands using alcohol gel and then distribute the pens, facemasks and face shields.

Subsequently, together with the consular staff, they will count the holograms (stickers) received and sign the conformance sheet.

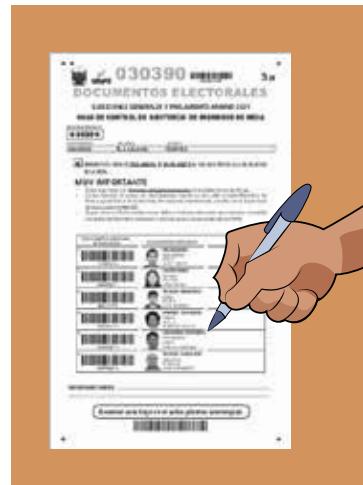

TO BEAR IN MIND

- The political parties poll watchers may show up at the beginning or after the setting up. When they arrive, they will be asked to produce their credentials and DNI.
- They can only represent one single political party at a time.
- No two political parties poll watchers from the same political party will be allowed to oversee the same polling station.

2

The **SECRETARIES** will take from the supplies box package "B" for setting up the polling station. Next, they will open it and take out the attendance control sheet from the documents. They will sign it and call out loud each polling station member to sign. If a member is absent, the word "ABSENT" ("FALTÓ") will be written in the signing space provided. When finished, the form will be kept in an orange plastic envelope.

3

The **THIRD MEMBER** extracts from the box of materials package "C" for scrutiny and sets it apart to use it when voting closes.

Then, the self-adhesive label "Electoral surplus" will be placed on the empty box; the box will be placed beside the desk to there discard used paper for subsequent recycling.

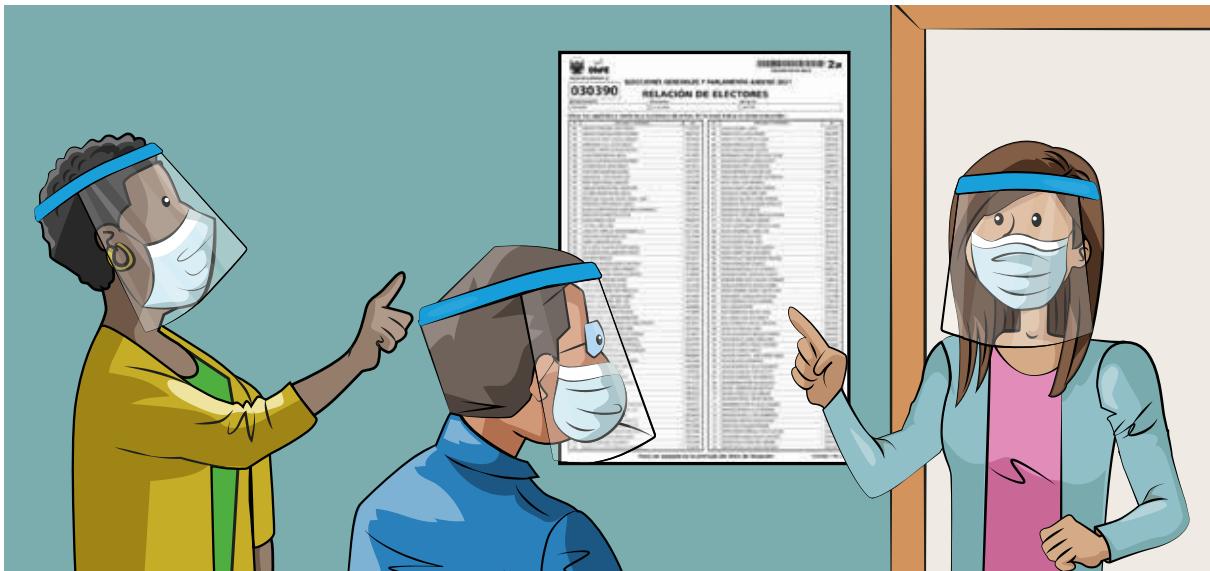

NOTE

The elections documents' surplus box will only be used to dispose of used electoral documents for subsequent recycling. In addition, the consular staffer will provide a red bag for disposing of masks, tissues, and toilet paper. A black bag (previously placed on the table) will be used to dispose of other types of waste.

4

The three polling station members will ensure that the list of voters will be posted outside the voting precinct.

Next, they will ensure that the lists showing the candidates' names for the three elections are posted inside the secret voting chamber.

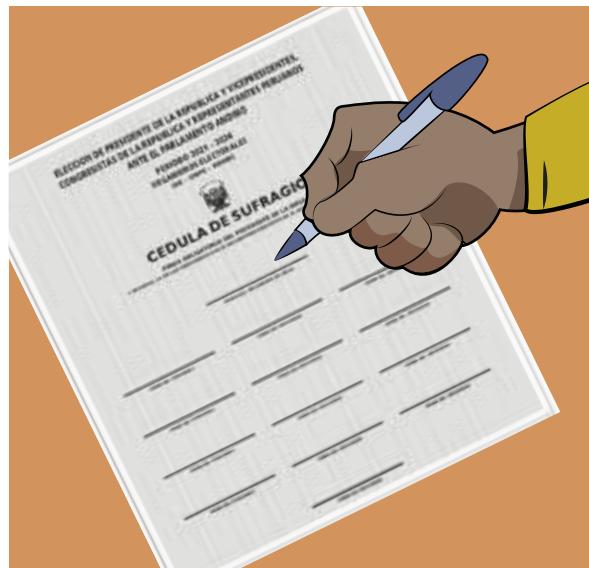

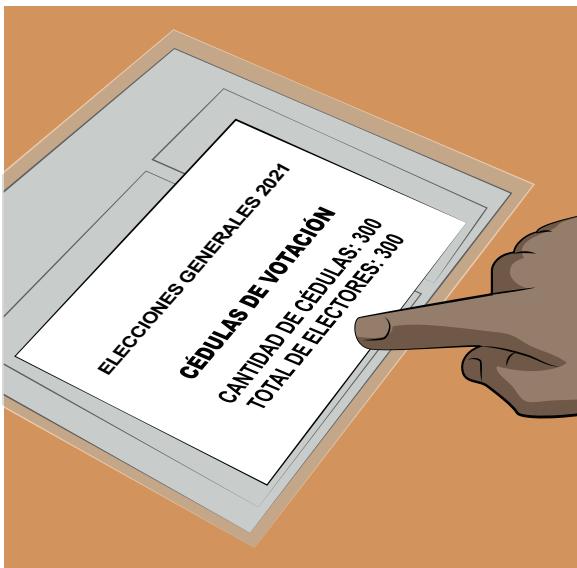

NOTE

Poll watchers and party/candidate representatives can participate in both inspections.

Likewise, during the vote, they may inspect these documents have not been altered; consular staff must be notified of any alterations found.

5

The **PRESIDENT** ensures that the package identification label shows enough ballots are available for all voters and will proceed to sign them.

NOTE

To begin voting, the president will sign first a group of ballots and then proceed successively with the remaining batches.

The political parties' poll watchers will sign the forms if they wish to do so, but only during booth set up.

6

The **SECRETARY** will break down the voting forms for the three elections and distribute them among polling station members for filling out and signing.

How many installation minutes must be filled out?

7

Answer: Five forms for PRESIDENT and VICE PRESIDENTS' election; five, to elect CONGRESSMEMBERS; and five for elections to the ANDEAN PARLIAMENT.

Section "A" of the SETTING UP FORM can be easily filled out as follows:

Write down the time of installation.

Check if the material was received in good condition.

Write the number of ballots received.

In case of incidents, fill out the "Observations" field

If any political parties poll watchers are present, an additional form will be filled for each type of election, and they will be delivered at the end of voting, if they so request.

NOTE

Each polling station member must sign the forms, and then, fill out their personal identification information.

Parties' poll watchers will write their personal details and sign the form, if they so desire. To do this, they will use their own pens. If they don't have one, they will be lent a previously disinfected pen.

SPECIAL CASES

During polling station set up

A

What happens if at 6:00 a.m. all the main polling station members are present, but one or more substitutes are absent?

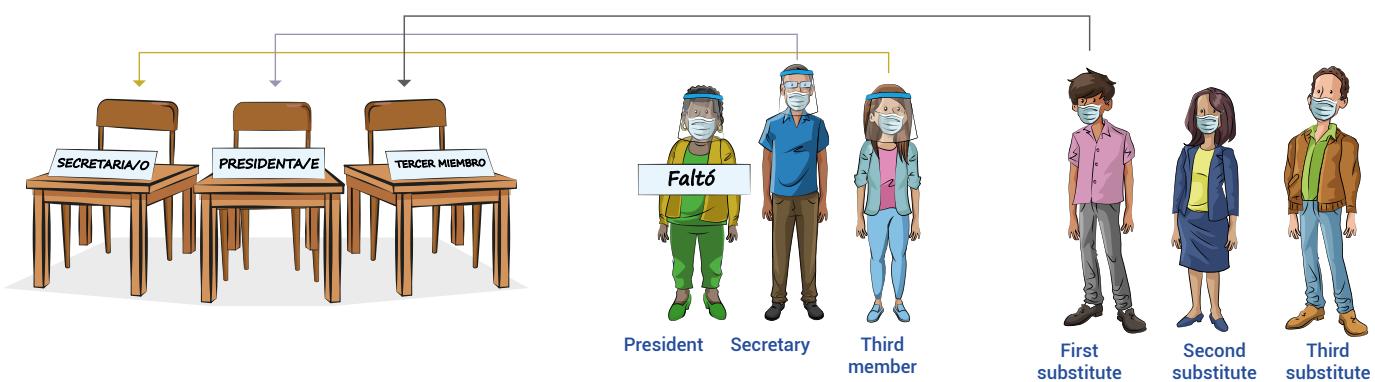

Answer: The station will be set up with the main members. When attendance is called, FALTÓ (ABSENT) will be written in the space provided for the absent substitute to sign. Absentees will be fined for not showing up for polling station installation (220 soles).

B

What happens if at 7:00 a.m., the three substitutes are present but one or more main members are absent?

Answer: If the president is absent, the secretary will fill that position; the third member will fill the secretary's position and the first substitute will act as third member.

If, in addition, the secretary is absent, the third member will fill the presidency; the first substitute will join as secretary and the second substitute will fill in as third member.

If the three main members are absent, the three substitutes will fill their positions. The polling station cannot be installed with less than three members.

Consular staff will deliver the elections supplies only once the polling station has been set up with its three members who must sign the setting up minutes.

C

What happens if at 7:00 a.m., only one main member or only one substitute are present?

Answer: Whoever is present, will fill in as president and will be the only person entitled by law and with the assistance of enforcement agents, to recruit from the voters' line one or two persons, as required, to complete the members of the polling station.

D

What happens if at 7:00 a.m., neither the main members nor the substitutes are present?

Answer: Consular staff will report so to the president of the polling station designated with the prior station number. If not yet present, the president of the station with the subsequent number will be informed. This person, as provided by law and with support from enforcement agents, will recruit from the voters' line the three persons who will be acting as station members of the vacant polling station.

E

What happens if at 7:30 a.m. neither station members nor voters are present to set up the voting place?

Answer: A station that is already operating will be required to also set up the polling station where, at that time, no members nor voters are present.

- In this case, station members will receive the elections supplies corresponding to the unattended station and use the materials to proceed to ballot casting, although separately for each station. Consequently, they will set up the commissioned station filling out separate installation minutes.
- During voting, the ballots for the two stations will be kept apart. It will also be ensured that voters will place their ballots in the correct ballot box. At the end of voting, the voting records for the polling stations will be filled out separately.
- During vote count, the ballots from the initial polling station will be counted, followed by the commissioned station. The records and results posters will be filled out separately.

F

What can be done if at 7:30 a.m., only one or two persons have arrived at several voting stations?

Answer: Consular staff will recruit among attendees at least three persons to set up the two voting stations where they are registered.

- In this case, polling station members will receive two elections materials boxes to be used separately. They will set up two separate stations, each with its own installation minutes.
- During voting, the ballots pertaining to the two stations will be kept separately; in addition, stations officials will ensure voters place their ballots in their corresponding ballot box. At the end of voting, the voting records will be filled out separately.
- During the vote count, the ballots from each ballot box will be counted separately, and the corresponding records and results posters will be filled out separately.

In these last two cases, the incident will be reported in the installation minutes Observations field; this box will be covered with a protection sheet, requested from the consular official.

NOTE

The personal details of anybody refusing to help in setting up a voting station will be entered in the observations field. A 220 soles fine may be charged.

The voter performing as a station official will also sign on the back the attendance control sheet.

What happens if an illiterate or physically disabled station member cannot sign the installation minutes?

Answer: The station member will be asked to fingerprint on the signing line. Next, their names, last names and DNI number will be entered. Subsequently, in the "Observations" box of the installation minutes the following remark will be entered: "Mr./Mrs. ... was unable to sign because..." .

CANTIDAD DE CÉDULAS DE SUFRAGIO RECIBIDAS	
→ <u>TRESCIENTAS</u>	
(en letras)

NOMBRES: <u>Luis Idriso</u> APELLIDOS: <u>Soul Ambes</u> DNI: <u>15824136</u>	

Finally, consular staff will be required to provide protection sheeting to cover the "Observations" box.

What shall be done if an accredited party poll watcher at the station asks to close the station under installation?

Answer: The law allows the party poll watcher to request suspending the station's installation, but only for the following reasons:

- The station is being set up at a place other than designated.
- The station is being set up under conditions different from those described in this manual's installation chapter.
- The station is installed after midday.

Or whenever warranted circumstances prevent the free exercise of voting rights.

If such a request is made, the following remarks shall be entered in the "Observations" field of the setting up minutes: "Poll watcher... representing political party... requests the suspension of the station's installation for the following reasons: ..." .

Finally, the consular official will be requested to provide protection sheeting to cover the "Observations" box.

VOTING

07:00

To prevent voters from agglomerating, voting will start at 7:00 a.m. and end at 7:00 p.m.

STEPS:

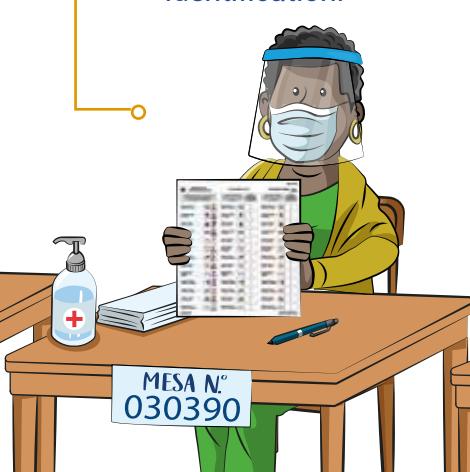

1

GETTING READY TO VOTE

I am the secretary, and I will ask the voters to sign and fingerprint the voters' list.

I am the president, and I will deliver the voting ballot to the voters after they have produced their identification.

I am the third member, and I will stick the hologram on the voters' DNI.

All polling station members will cooperate in keeping voters healthy. To this end, they will proceed as follows:

- Ensure that voters always keep at least one and a half meters physical distance.
- Ensure hands are disinfected frequently.
- Ensure facemasks and shields are used properly.

TO BEAR IN MIND:

The main and substitute polling station members will vote first, followed by parties' poll watchers (only if appropriate); next, the voters will proceed to vote, one at a time.

President

Voters will be asked to produce their DNI for identification. It is not necessary to take the ID in the hand. Then, voters will be asked to say aloud their list number and family names.

NOTE

Electronic, minors' DNI (even if not replaced by the adult DNI), and expired DNIs are also good for voting.

Secretary

The secretary will check in the voters' list the name of the voter; check their personal details and tell the president if the data are correct.

President

After the voters' identity is verified, the voter will receive a folded and signed ballot.

If the voter does not have a pen, they will be lent a previously disinfected pen.

Third member

The third member will ask the voter to place their DNI on the tray. While the voter is voting, the third member will place a hologram on the DNI. When the voter returns from the secret voting chamber, they will be asked to place their folded ballot in the ballot box.

NOTE

Poll watchers have the right to ensure that voters enter the secret voting chamber unaccompanied, unless the voter is a person with disabilities.

Secretary

Keeping appropriate physical distance, the secretary will tell the voter where to sign and fingerprint the voting record. If a pen was lent to the voter, they will be asked to place it back where it belongs.

Third member.

The third member will ask the elector to retrieve their DNI from the tray.

NOTE

The electoral precinct's gates will close at 7:00 p.m., but voters already inside will be allowed to vote.

CLOSING OF VOTING

Secretary

• Si hubo deterioro de hologramas, escribe la cantidad en el campo de Observaciones del recuadro DEVOLUCIÓN.

Next, the adhesive labels included in installation package "A" will be used to seal the booklet which will subsequently be saved in the orange envelope.

Finally, the orange envelope will be closed using a tally sheets' closing label, found in vote count package "C".

How many forms shall be filled out when voting ends?

The same record forms for the three elections that were filled out during set up will now also be filled out in section "B". VOTING TALLY.

NOTE

Section "B" in the voting tally section can be easily filled out following the steps below:

Fill out the number of actual voting citizens, as well as the total unused ballots.

Write in the poll watchers' remarks, or those made by polling station members (if any).

Fill out the time when voting ended.

All polling station members must sign, together with their first names, last names and DNI number.

Poll watchers may also fill out their personal details and sign the forms, if they wish. Preferably, they will use their own pens. Otherwise, they will be given a previously disinfected pen.

This image shows the front page of an 'ACTA ELECTORAL' for the 'ELECCIÓN DE PRESIDENTE Y VICEPRESIDENTES DE LA REPÚBLICA'. It includes sections for 'ACTA DE INSTALACIÓN' and 'ACTA DE SUFRAGIO'. The 'ACTA DE SUFRAGIO' section is highlighted with a red border. It contains fields for 'TOTAL DE CIUDADANOS QUE VOTARON' (300), 'TOTAL DE CÉDULAS NO UTILIZADAS' (0), and 'OBSERVACIONES' (mentioning a voter's name and signature). There are also fields for 'FIRMA Y DATOS DE PERSONEROS'.

This image shows the 'B' section of the 'ACTA ELECTORAL' for the 'ELECCIÓN DE PRESIDENTE Y VICEPRESIDENTES DE LA REPÚBLICA'. It is titled 'ACTA DE SUFRAGIO' and includes fields for 'TOTAL DE CIUDADANOS QUE VOTARON' (280), 'TOTAL DE CÉDULAS NO UTILIZADAS' (20), and 'OBSERVACIONES' (mentioning a voter's name and the time '7 p.m.'). The 'FIRMA Y DATOS DE PERSONEROS' section shows signatures and DNI numbers for three individuals: Alex Carlos, Rosal María, and Luis Antonio. Red circles highlight the 'TOTAL DE CIUDADANOS QUE VOTARON' field, the 'TOTAL DE CÉDULAS NO UTILIZADAS' field, and the 'OBSERVACIONES' field.

Special CASES

During voting

A

How to assure compliance with preferential treatment and rapid voting regulations?

Answer: Polling station members will allow senior citizens and persons with disabilities to vote first. Also so allowed will be voters carrying children in their arms and pregnant voters.

Guidelines

- Senior citizens are those aged 60 years or older.
- Visually impaired voters will be asked if they wish to vote using a Braille ballot. The consular official will provide the form. In the meantime, other waiting voters in line will continue to vote.
- The decision of a person who has the right to preferential voting treatment but declines it must be respected.
- Voters with a rapid voting card will be allowed to vote without having to wait in line. After they vote, the card will be destroyed.

Guidelines for voting in the temporary module located at the voting facility or site entrance

- If the consular official reports a voter is waiting in the module, the three polling station members, if they so consider appropriate, in coordination with accredited poll watchers, will momentarily move to the temporary voting module (R. J. N. ° 224-2006-J/ONPE).
- Before moving to the module, they will tell the waiting voters they should expect some delay.

B

Can station members who missed their station's setting up still vote?

Answer: Yes, and their DNI will not be withheld; however, under no circumstance will they be allowed to sign the members' attendance roll, nor fill in for any of the other citizens who installed the voting station.

C

What happens if a citizen, after voting, erroneously signs in the wrong box?

Answer: They will be asked to sign again in the right box. Next, in the "Observations" box in the voters roll (on the same page) the following will be written: Mr./Mrs. ... erroneously signed in the box for...".

The same procedure will be followed for erroneous fingerprinting.

D

What treatment should be given to voters whose box in the voters' roll was erroneously signed by another?

Answer First, an explanation will be given to the citizen who will be shown the remarks included in the "Observations" box. Next, a ballot will be provided for voting. After having placed their ballot in the ballot box, their first names, last names and DNI number will be entered in the "Observations" box, on the same page where the correct box is, and they will be requested to sign and place their fingerprint.

The same treatment will be followed in case of erroneous fingerprinting.

E

How to proceed if a voter leaves the voting station after signing but places their fingerprint in the wrong place?

Answer: In the "Observations" box in the voters roll (on the same page), the following remark will be entered: Mrs./Mr. ... effectively voted but erroneously signed and placed her/his fingerprint in the box designated for Mrs./Mr.".

F

How to proceed when a transperson produces a DNI with a photograph showing facial features different from their present physical features?

Answer: No question, comments or criticisms about the voter's gender identity will be made. Nor will negative comments or gestures be directed at other persons at the polling site.

Next, the citizen will be allowed to vote because it is a right that they cannot be denied for reasons of gender identity or mismatch between their appearance or gender expression, and the name, sex and photograph appearing in the DNI or the voters roll.

G

What is identity theft?

Answer Identity theft occurs when someone uses another voter's signature and/or fingerprint in the voting forms.

What to do?

- First, confirm the signature does not belong to a voter who arrived earlier and who signed by mistake or accidentally.
- Once the voter's identity has been verified, he/she will be allowed to vote to the extent it is not known whether the voter who showed up earlier or who arrived afterwards is a presumed identity thief. This will be decided by the Prosecutor's Office ("Ministerio Público").
- The voter will sign and place their fingerprint together with their personal data and DNI number at the bottom of the voters roll. Next, on the same page, at the bottom of the form, an observation will be inscribed.
- The corresponding DNI, with the hologram already placed on it, will be handed over to the consular staff, who will send it to the Public Prosecutor.
- The voter will be given a withholding certificate, requested from the consular official.

Answer: In the first place, it must be remembered poll watcher have the right to challenge the identity of citizens waiting to cast their vote. Consequently, their arguments will be heard to then proceed to determine if the challenge is valid.

If the challenge is declared without grounds:

- The citizen will vote and their DNI will be returned.
- In the "Observations" box in the voting tally sheets, the following remark will be entered: "Poll watcher... with DNI number... challenged the identity of Mrs./Mr. ... The polling station members declared the challenge without merit".
- At the end of voting, the consular staff will be requested a protection sheeting to cover the "Observations" box.

If the challenge is declared without merit, and the political party poll watcher appeals the decision:

- The voter may vote but his/her DNI will not be returned, nor will the voter be allowed to place his/her ballot directly into the ballot box.
- The consular staff will be requested to provide a challenge documents' envelope and the receipt showing the identity document was withheld.
- The ballot and DNI will be placed in the envelope. Next, the data envelope will be filled out and the forms signed. The closed envelope will be placed in the ballot box.
- The details will be filled out and the receipt slip signed, same which will be delivered to the voter.
- The "Observations" box in the voting tally sheets for the three elections and in the voters' roll will be filled out.
- At the end of voting, a protection sheet will be requested from the consular staff to cover the "Observations" field.

**NOTE**

If the party poll watcher refuses to sign, the challenge will be regarded as not filed. Consequently, the voter will be asked to place his/her ballot in the ballot box, and their DNI returned.

I

What happens if a voter shows he/she is at the right polling station, but their name is not included in the voters list?

Answer: The polling station president will ask consular staff to provide a voting attendance certificate form, which will be filled out and given to the voter who will use it in resolving their case.

HUELLA DACTILAR DEL ELECTOR

PARA EL ELECTOR

J

What happens if the person appearing at the station is attempting to replace a third person and vote in their stead?

Answer: The incident will be reported to the law enforcement agent, who will proceed to arrest the presumed identity impersonator.

K

How to proceed if an accredited poll watcher requests to annul the polling station during the vote?

Answer: The law authorizes poll watchers to request a polling station's annulment during voting. Pursuant to regulations in force, a poll watcher may argue violence or intimidation against voters to bias their vote towards a given candidate or ticket.

If such a request is filed, the following will be entered in the "Observations" field in the voting tally sheets: "Poll watcher... representing political party... requested the polling station be declared null on grounds that...".

Finally, when the voting tally sheets are filled out, consular staff will be requested to provide protection sheeting to cover the "Observations" field.

Valid, null, and blank votes

To better understand how to proceed, look at the ballot shown below used to vote for the three elections. Valid votes are those where the corresponding symbols have been checked with an X or a cross.

As may be noticed, the marking may be faint or strong, and even fallout of the voting box. However, it should be clear, and the intersecting lines must fall within the corresponding symbol box.

For the congressional elections, a preferential vote was cast for candidate 3 and another to candidate 4.

In foreign jurisdictions, candidates are numbered from 1 to 4 and the two preferential voting boxes are marked.

Is it right to vote for different political organizations?

Yes, if the voter wishes to do so. This is known as "crossed voting". (See example on page 28).

For ANDEAN PARLIAMENT elections, a preferential vote was cast for candidate 11 and another for candidate 15.

For this election, candidates are numbered from 1 to 16. Consequently, using two boxes for issuing a preferential vote is correct.

May a ballot show one valid vote, a null vote and a blank vote?

Yes, as shown in the following example.

Valid marking	Non-valid marking	No marking
PRESIDENTE Y VICEPRESIDENTES	CONGRESISTAS	PARLAMENTO ANDINO
MARQUE CON UNA CRUZ <input checked="" type="checkbox"/> O UN ASPA <input type="checkbox"/> DENTRO DEL RECUADRO DEL SIMBOLo Y/O FOTOGRAFIA DE SU PREFERENCIA	PARTIDO POLITICO MARQUE CON UNA CRUZ <input checked="" type="checkbox"/> O UN ASPA <input type="checkbox"/> DENTRO DEL RECUADRO DEL SIMBOLo Y/O FOTOGRAFIA DE SU PREFERENCIA	PARTIDO POLITICO MARQUE CON UNA CRUZ <input checked="" type="checkbox"/> O UN ASPA <input type="checkbox"/> DENTRO DEL RECUADRO DEL SIMBOLo Y/O FOTOGRAFIA DE SU PREFERENCIA

UNIVERSO		

Exceptional valid and null vote cases

Some citizens may vote differently because they wish to do so or because they do not know how to vote correctly, creating doubts about the validity or nullity of their votes. These cases are shown below:

In the columns for PRESIDENT and VICE PRESIDENT

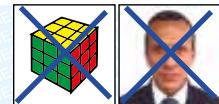

The vote is VALID if instead of marking the symbol, the photograph is marked.

PARTIDO POLITICO
AMANECER DE NUEVO

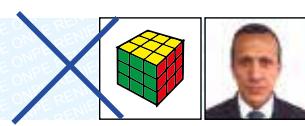

The vote is VALID if both the symbol and the photograph are marked. However, this counts as only one vote.

PARTIDO POLITICO
AMANECER DE NUEVO

The vote is NULL if the X or cross intersecting lines fall outside the symbol or photograph box.

PARTIDO POLITICO
AMANECER DE NUEVO

The vote is NULL if a mark is made choosing two political organizations.

PARTIDO POLITICO
AMANECER DE NUEVO

PARTIDO POLITICO
PAZ Y AMOR

In the CONGRESSIONAL voting column

A preferential vote is given to candidate number 3, thus casting also a single valid vote for the political organization for which the preferential vote was cast. According to law, if the preferential vote box is correctly used, it will also count as a valid vote for the corresponding political organization, even if the respective symbol was not marked.

In this example, a VALID preferential vote is cast for candidate number 3 and another equally VALID vote for candidate number 4. As in the previous case, the vote is regarded as VALID for the political organization for which the preferential votes are cast.

In this case, the preferential vote inscribed in the first box is valid. The other one is not counted because no two votes can be cast for the same candidate. Likewise, the vote for the corresponding political organization is also valid for the same reasons as in the prior examples.

In this case, a VALID vote is cast for a political party, and another preferential VALID vote for candidate 3. The cross in the first preferential vote box does not count.

This example shows a VALID vote for a political party and a preferential vote, also VALID, for candidate number 3. The inscription in the second preferential vote box is not counted, because no candidates are listed with numbers above 4 in foreign jurisdictions.

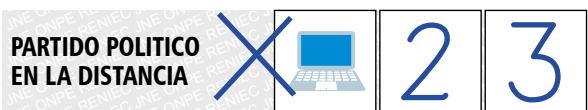

This example shows a VALID preferential vote for candidate number 2. Likewise, the vote for the political party is also VALID even if the symbol remains unmarked. The cross in the first preferential vote box is not counted.

This example shows only one VALID vote for the respective political party. The crosses in the first and second preferential vote box are not counted.

This vote is NULL because the intersection of the X lines fall outside the symbol box. As the political party vote is null, the respective preferential votes are also invalid.

This is another NULL vote because a check (✓) has been used instead of an X or cross, the two allowed markings. Consequently, the preferential votes are also cancelled.

This case shows a NULL vote because more than one symbol has been marked.

This vote is NULL because the symbol of a political organization was marked but the number of a candidate from a different political party was entered in the preferential voting box.

In the column for representatives to the ANDEAN PARLIAMENT

Two boxes appear in this column for each political organization for voters to cast their preferential vote. Consequently, the criteria to determine the validity of votes in this election are the same as those that apply in voting for congressmembers. The only difference will be that the preferential vote boxes for representatives before the Andean Parliament, only votes numbered from 1 to 16 will be regarded as valid.

UNIVERSO					

Other cases where the vote may be regarded as null in the three ballot columns:

- When the ballot is torn.
- If the outside of the ballot does not show the polling station president's signature.
- When the ballot shows the name, signature or DNI number of the voter.
- If the ballot is defaced with inscriptions, phrases or marks not allowed in the elections.
- When the vote was cast on a ballot not provided by the voting station.

What to do when the station members do not agree on the validity or nullity of a vote?

Pursuing to article 283 of the Organic Elections Law, all issues that may arise during vote counting will be resolved by a voting majority of the voting station members.

Vote COUNTING

Three (3) vote counts must be carried out. The first one for president and vice presidents; next, to elect congressmembers, and the third one, to elect representatives to the Andean Parliament.

President and vice president vote count

- 1 The secretary will write in the election's tally sheets for presidential elections (back side, section "C", vote count tally sheets) the time when counting starts. Next, they will be kept away to prevent obstructing the ballot count.

The image shows a scanned copy of an 'ACTA ELECTORAL' (Electoral Acta) for the 'ELECCION DE PRESIDENTE Y VICEPRESIDENTES DE LA REPÚBLICA' (Presidential and Vice-Presidential Election) of 2021. The document is issued by the ONPE (National Institute of Electoral Processes). Key details include:

- Mesa de Sufragio N°: 030390
- Continente: UNIVERSO
- País: LA GALAXIA
- Ciudad: JUPITER
- Total de Electores Hábiles: 300
- Section C: ACTA DE ESCRUTINIO. It includes the time '7:30 p.m.' when the acto began.
- Importante: 'Escribe con números legibles como estos: 0123456789'
- Organizaciones Políticas and Total de Votos:

ORGANIZACIONES POLÍTICAS	TOTAL DE VOTOS
PARTIDO POLITICO AMANECER DE NUEVO	1
PARTIDO POLITICO PAZ Y AMOR	2
PARTIDO POLITICO GOTAS DE LLUVIA	3
PARTIDO POLITICO ME FALTA EL ALIENTO	4

- 2 The president will take the ballots from the ballot box and ask the other polling station members to assist in counting the ballots. The ballots shall not be opened while they are being counted.

Each station member will count approximately one third of the total number of ballots.

It is advisable to set groups of twenty ballots and then count them by groups of twenty.

3

The number of ballots found will be matched against the number of voters, written in the election's tally sheets (section "B", voting tally sheets).

For example: 14 sets of 20 ballots each, counted 20 at a time, results in a total of 280 ballots.

OBSERVACIONES:
Siendo las 7:00 p.m., finalizó el sufragio.
FIRMA, NOMBRES, APELLIDOS Y DNI DE MIEMBROS DE MESA (OBLIGATORIO)

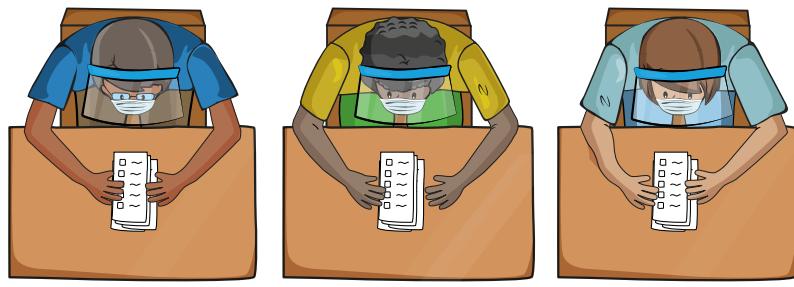

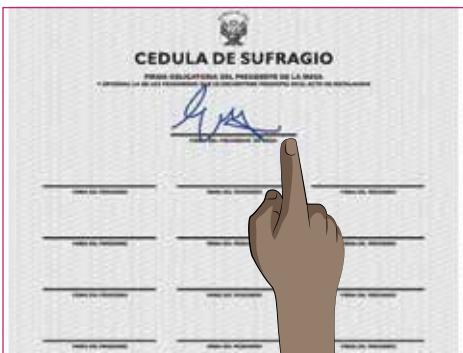

Cases

- In case of too many ballots, the excess ballots will be chosen at random, and destroyed without opening them.
- In case of a smaller number of ballots, the vote count will continue, and the ballots found will be counted.

In any of the above two cases, the secretary will describe the incident in the "Observations" box in the tally sheets for the three elections (in section "C", vote tally sheets).

4

The three members of the polling station will then open the ballots and check if they are signed by the station's president. Unsigned ballots will be set aside to be counted as null votes for the three elections.

5

The secretary will break down from the election's forms, the draft sheet to be used in tallying the votes cast for each presidential candidate.

How will the draft tally sheet be used in presidential elections vote counting?

This procedure will go through three stages.

First:

A downstroke will be marked for each vote cast for the candidates.

To proceed orderly, when four vertical downstrokes are made, the fifth stroke will be a diagonal stroke. If there are more ballots to be counted, another group of downstrokes will be started.

Recommendations:

- When drawing a downstroke, it is recommended not to fill the row; it is better to leave some room for marking many downstrokes.
- It is also important to set the groups separately, and not to draw them close together.

Second:

When all the ballots have been checked, the groups of downstrokes will be counted, horizontally.

If these groups are not drawn too close together, counting five at a time will be easy.

If when adding them up a mistake is made, the number can be erased, and the right number will be written. The purposefully called "draft" tally sheet allows correcting errors.

Third:

After all the horizontal row groups' totals have been added up, the numbers inscribed as total for each row will be added up to reach the total number of cast votes. This number will be written at the bottom.

It is VERY IMPORTANT that the total number of votes cast shall be compared against the total number of actual voters. This latter number was written in the voting tally sheets.

If the numbers do not match, the reason may be a mistake when adding votes in the draft sheet. This mistake may be corrected by adding up again the row totals or counting the downstrokes one more time.

Third

6

Station members will jointly verify to which political organization belongs the vote appearing on each ballot. In this stage, only the votes in the presidential elections column will be checked.

If poll watchers are present, the ballots will be shown to them but only the station members will determine whether they are valid or null votes, unless a poll watcher challenges the vote. (More about vote challenging below.)

7

Once the vote count has been completed using the DRAFT VOTE COUNT SHEET for president and vice president positions, the total number of votes will be copied to the presidential elections tally sheets. (In section "C" of the vote tally sheets.)

After entering the results, observations (if any) will be written down, followed by the time when vote counting ended. Next, the signatures, first names, last names and DNI numbers of each polling station member shall be placed. All station members must sign. Party poll watchers may sign if they so wish.

8

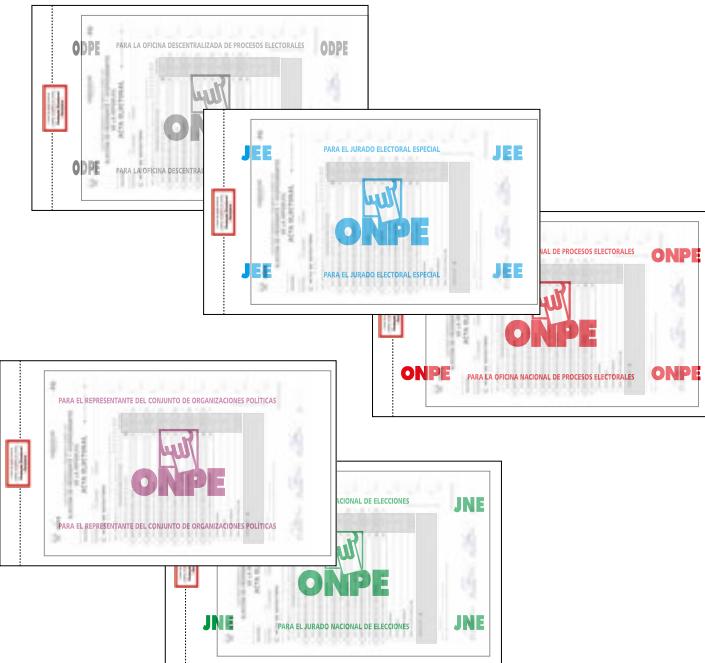

Once the tally sheets have been filled out, the results will be covered using protective sheeting. Also, the OBSERVATIONS field will be covered, even if no remarks have been entered.

The sheets are found in the VOTE COUNTING package.

The results appearing on the five (5) tally sheets to be handed over to the consular staff must be covered.

9

The covered tally sheets will be placed in the plastic envelopes, which shall be closed using the self-adhesive label. Both the envelopes and the labels are found in the VOTE COUNT package.

Of the five tally sheets to be handed over, put in the gray envelope the form showing the resulting number of votes, clearly written and without any smudges, and properly covered with protective sheeting.

NOTE

**ONLY FOR CASES WHEN THE PARTY POLL WATCHER HAS USED THE TRIPLE FORM
FOR OBSERVATIONS OR COMPLAINTS REGARDING THE VOTE COUNT:**

- A copy of the form will be kept in the light blue envelope, another one in the gray envelope, and the last one in the green envelope.

Final step for presidential elections vote count

- The polling station president will hand over to the consular staff the envelopes containing the presidential election's tally sheets. The officials in charge will pick them up from the booth.
 - The secretary will detach from the elections supplies the presidential elections poster results and copy on it the results entered in the draft tally sheet.
 - The third booth member will place the poster outside the room.
 - If any poll watchers request filled out tally sheets, one will be delivered to each. (These forms are not sheeting protected, nor will they be kept in an envelope).

Congressmembers vote count

1

The secretary will write down in the congressional elections tally sheets the time when vote counting starts. Then, the forms will be put away to start counting the ballots and entering the results in the corresponding columns.

1 2 3 4 5 6 7 8 9

2

The secretary will break down from the elections forms the draft tally sheets to start the congressional vote count. Next, because of the large number of political parties whose votes will need to be counted, the total sheets will be divided into two groups. One group will be handled by the secretary and the other half by the third member. The polling station president will keep the ballots.

How to count the ballots?

First: The CONGRESS MEMBERS column will be identified in the ballot and then check which political party the vote was cast for. In addition, the numbers appearing in the preferential vote boxes will be checked.

Second: a designated station member will mark the downstroke(s).

Example:

This example shows a vote for the "Amanecer de Nuevo" party. Additionally, number 1 has been written in the preferential vote box for that party. Likewise, the number 5 appears in the second box. The example also shows the downstrokes marked to reflect the votes cast on that ballot.

NOTE

The boxes on the last page of the draft tally sheet will be used to mark the blank, null and challenged votes' downstrokes.

The draft tally sheet to be used abroad, will show in the boxes for political parties only 4 rows to mark preferential votes.

3

After counting all the ballots, the downstrokes will be counted.

Examples of downstrokes added from the first page of the tally draft sheet.

PÁGINA 2 DE 2

This figure (the sum total) will equal the total number of actual voters. In case of discrepancy, the additions will be reviewed, until the error can be found and be corrected.

How to enter the results on the congressional elections tally sheets?

The total number of votes cast for each political party, as well as the total blank, null and challenged (if any) vote totals will be transcribed from the last page of the draft tally sheets. Next, the total number of votes cast will be copied. Pay attention to figures in the red boxes.

The total preferential votes taken from the first to the last tally sheets will be transcribed to the tally sheets. The example below shows the preferential voting results for the "Piensa Positivamente" party candidates. (Pay attention to the figures appearing in the green box below).

THE NUMBERS MUST BE ENTERED USING THE FOLLOWING NUMBER FONT TYPES: 0, 1, 2, 3, 4, 5, 6, 7, 8, 9.

FIRMA Y DATOS DE PERSONERO

After copying the results, all observations (if any) will be entered, as well as the time when vote counting concluded. Next, the polling station members will sign, and write their first and last names and DNI numbers. Their signature is mandatory. Poll watchers may sign only if they so wish.

4

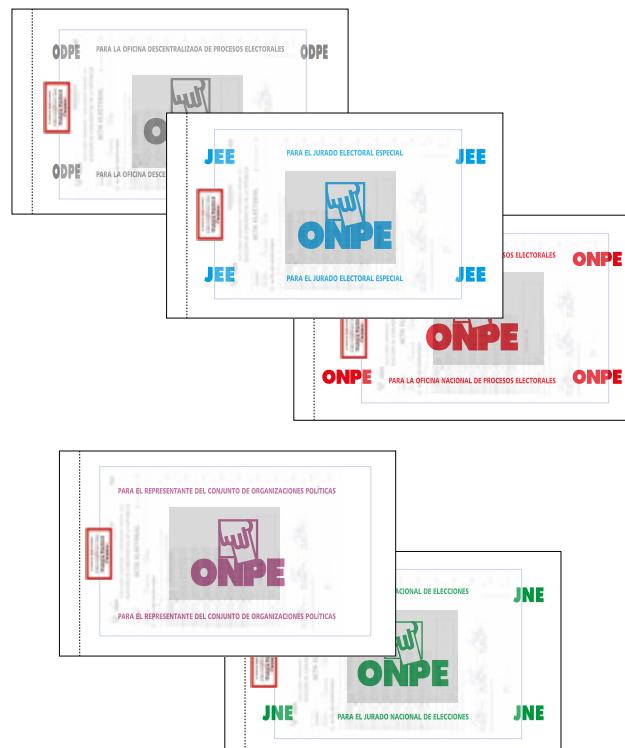

After filling out the forms, the results will be covered using protective sheeting. The OBSERVATIONS field will also be covered even if no marks were entered there.

The sheets are found in the VOTE COUNTING package..

The results appearing on the five (5) forms that will be delivered to the consular officials must be protected with self-adhesive sheeting.

The protected forms will be placed in plastic envelopes which will be closed with a self-adhesive label. The envelopes and the labels are found in the VOTE COUNTING package.

Of the five forms, those showing clearly written figures, without smudges and properly protected with a protective sheeting will be placed in the gray envelope.

NOTE

PROCEED AS FOLLOWS IN CASE OF OBJECTIONS OR COMPLAINTS REGARDING THE CONGRESSIONAL VOTE COUNT:

- Together with the tally sheets placed in the gray, light blue and green envelopes, an additional copy of the vote count observations and complaints form will be placed in them.

Final step in CONGRESSIONAL elections vote count

- The station president will hand over to the consular official the envelopes containing the congressional elections tally sheets. The consular official will pick them up from the booth.
 - The secretary will break down from the elections documents the CONGRESSIONAL elections results poster. Next, the results from the draft tally sheets will be transcribed to the poster.
 - The station's third member will place the poster outside the room.
 - If any poll watchers request filled out tally sheets, one will be delivered to each. (These forms are not sheeting protected, nor will they be kept in an envelope).

Andean Parliament representatives vote count

The procedure is very similar to the vote count for electing congressmembers, as here also a vote is cast for a political party, but also preferential votes are cast.

Summary:

- The ballots are counted, and the valid, null or blank votes are identified. All votes are counted using downstrokes entered in the Andean Parliament draft tally sheet.
- After the ballots have been counted, the added figures will be written in the draft tally sheets.
- The results will be copied to the elections tally sheets for Andean Parliament representatives.
- Each station member will sign the tally sheets and write their personal details. The poll watchers may sign if they so wish.
- The sheets will be protected using protective sheeting and kept in plastic envelopes.

Of the five forms, those showing clear numbers without smudges and with a well-placed protective sheeting will be put in the gray envelope.

IF A POLL WATCHER USED THE TRIPLE FORM FOR OBSERVATIONS OR COMPLAINTS AGAINST THE VOTE COUNT:

- A copy of this form will be kept in the light blue envelope, another one in the gray one and the final one in the green envelope.

IF ANY IDENTITY CHALLENGES WERE FILED DURING VOTING:

- Together with the tally sheets, the paper envelope containing the DNI and ballot of the person whose identity was challenged will be kept in the light blue envelope, together with the tally sheets.

IF A VOTE WAS CHALLENGED DURING THE PRESIDENTIAL, CONGRESSIONAL OR ANDEAN PARLIAMENT REPRESENTATIVES ELECTIONS:

- Together with the tally sheets, the envelope(s) including the votes with IDs corresponding to the challenged ballots, for one, both or the three elections, will be kept in the light blue envelope.

FINAL STEP IN ANDEAN PARLIAMENT VOTE COUNT

- When requested by the consular staff, the envelopes containing the tally sheets will be handed over to them.
- The secretary will break down from the elections documents the results posters corresponding to the elections to Andean Parliament representatives. Next, the results written down in the draft tally sheets will be transcribed to the poster.
- The third member will place the results poster outside the room.
- If any political parties poll watchers request filled out tally sheets, they will be delivered one each.
- The participation certificates will be detached from the election's documents. Next, the first and last names of each station member will be transcribed there, to be signed and distributed as appropriate.

- The counted and excess ballots will be torn and together with the draft tally sheets they will be kept in the used elections materials box.
- The recycling bag will be taken from the vote counting package (package C) to keep the pens, inking pad, unused challenge envelopes and adhesive tape. After closing the bag, it will be put away in the used elections materials box. Also, there will be put the surplus tally sheets, unused forms, and others.
- The box containing the box with remaining elections materials, the ballot box and the voting booth. At the time of hand over, the reception/delivery slip for the tally sheets and elections supplies will be filled out marking the corresponding boxed with a cross or X as appropriate. Finally, the polling station president will sign the form and receive in return the reception slip.

Special CASES

DURING VOTE COUNTING

A

What to do if a party poll watcher exercises his/her right to challenge a vote?

Example 1

- The station members declare a vote to be null and a poll watcher says: "I CHALLENGE this decision because this vote is not null but rather it is valid for my party".
- The station members will listen to the objection, review the ballot and confirm their decision, which the political party poll watcher does not appeal.
- A null vote is recorded in the draft tally sheet and the vote count will continue.

Example 2:

- During the presidential elections vote count the polling station members declare a vote null, which the poll watcher challenges arguing the vote is not null but rather valid for his/her party.
- The party polling station members listen to the poll watchers' arguments; examine the ballot and confirm the vote is null, but the party poll watcher appeals the decision.
- The person charged with entering the downstrokes in the draft tally sheet will mark one in the challenged votes row. Next, the station president puts the ballot in a challenged votes envelope (found in vote count package "C"). The challenge is annotated on the envelope which is kept open for subsequent review of the ballot for the two other elections. Next, in the OBSERVATIONS field on the vote count section (for president and vice president tally sheets) the vote challenge annotation will be entered.
- Only at the end of the Andean Parliament representatives' elections vote count, will the envelope be closed and kept in the light blue plastic envelope including the Andean Parliament tally sheets.

NOTE

1. In example 2, if station members declared the challenge was grounded, the challenged vote would have also been entered in the draft tally sheets and then the ballot kept in the envelope together with the other forms.
2. Pursuing to article 282 of the Organic Elections Law, a station member may also challenge a vote.

B

B. How to proceed if in any of the vote counts a request is made to use the vote count observations or complaints form?

Answer: First, take into account a poll watcher has the right to file observations or complaints against the vote count.

How to proceed?

- The station members will decide by a majority vote.
- The consular official will be requested the vote count observations or complaints form.
- The station president will annotate the event in the vote count observations or complaints form, which will be filled out in three copies.
- The form will be filled out and the poll watcher will be asked to sign it.
- When the elections tally sheets are placed in the corresponding plastic envelopes, a copy of the form will be included with the tally sheets to be placed in the gray envelope, another one together with the tally sheets in the light blue envelope and the third one together with the tally sheets in the green envelope.

C

C. What to do if a party poll watcher requests the polling station be declared null during the vote count?

Answer: The law allows poll watchers to request annulment of a voting station during the vote count. In this case, pursuant to law, the poll watcher may argue the voting booth accepted votes from individuals who were not included in the roll of voters registered for that station. Additionally, it may be argued that the station members have rejected enough votes to alter the elections' results.

If this request is filed, the following will be entered in the "Observations" field in the vote count tally sheets:
"Poll watcher _____ representing political party _____ requested the voting station to be declared null on grounds that _____".

Finally, the consular official will be asked to deliver the protective sheeting to cover the "Observations" field.

PRACTICE EXERCISES

Filling out the elections tally sheets

PRACTICE 1:

At 6 a.m., Alex Tomasi Cusi (president), with DNI 10285501; Rosa Maria Pucon (secretary), with DNI 09600859; Antonio Roca Perla (third member), with DNI 40637179, and two substitute members have arrived.

- The voting station is installed with the three main members who receive the elections supplies, whose good condition they will verify.
- They will also ensure they have received 300 ballots.
- Poll watcher Ruben Poma Antunez from "Hojas del Viento" political party asks to sign the form. The other poll watchers do not wish to do so.

Instructions: For this case, section "A" of the setting up tally sheets will be filled out.

PRACTICE 2:

Voting closes at 7:07 p.m.

- The secretary counts the number of voters on the roll and a total 280 persons voted.
- The president counts 20 unused ballots.
- Poll watcher David Lopez from "En la Distancia" political party asks to sign the tally sheets.

Instruction: In this case, voting tally sheets section "B" will be filled out.

PRACTICE 3:

First, if you are the polling station member charged with filling out this page from the draft tally sheet, transcribe the votes cast on the last ballot, showing a vote for "Amanecer de Nuevo" party and preferential votes for candidates 3 and 4.

Next, add up the downstrokes to determine the total votes cast for the political parties shown on this and the next page. Also, add up the blank and null votes.

(**) MUY IMPORTANTE

Este resultado debe ser igual al total de ciudadanos que votaron, registrados en el Acta de Sufragio (Ver página 4a); verifíquelo antes de copiar en el Acta de Escrutinio.

PÁGINA 2 DE 2

PRACTICE 4:

If you are filling out the results from your desk in section "C" of the vote count act, proceed as follows. REMEMBER TO USE THESE NUMBER FONT TYPES. 0, 1, 2, 3, 4, 5, 6, 7, 8, 9.

- Copy from page 57 the total votes cast for each political party. Also, transcribe the numbers for blank and null votes, as well as the total votes cast.
- Then, from pages 56 and 57, copy the total preferential votes shown there.
- Finally, fill out the first and last names, as well as the DNI number and signature.
